Subject: Invitation to join A Library, Podcast & Forum meant exclusively for NPOs around key statutory and compliance matters

Note: To read this email content in Hindi, other languages click [here](#) to visit page and select language on top left corner.

Dear friend,

Greetings from CS Sharad Bhargava (Saathi Development Services), Suresh Ponnappa (Rohini Nilekani Philanthropies Foundation) and, Shemeer Babu (aikyam space) & Pooja T (aikyam fellows).

We understand that a dedicated resources repository around statutory and regulatory matters for NPOs is a challenge and an urgent need for staff working in Finance and leadership roles in NPOs considering the complexity and pace of changes. We have conceptualised and developed PATTIC (People's Alliance for Trust & Transparency in CSOs) which is an online collective of trustworthy and transparency tools.

PATTIC brings access to statutory and regulatory matters for NPOs in 3 ways:

1. PATTIC online Library, which includes books, FAQs on various statutory and regulatory matters and is equipped with a language translation tool at the top, so you can read resources in your preferred language. [Read the handbook](#).
2. PATTIC Podcast where you can tune in to and listen to our Spotify podcast on statutory and regulatory matters available [Listen on Spotify](#).
3. PATTIC Forum which facilitates interaction, helps in asking and answering questions online, facilitates discussions. Join the conversation and provide regular updates on compliances, help others, and ask your questions in our online forum. [Visit the forum](#).

We will continue to update these resources and add more based on the needs of the community.

We invite you to be a member of the PATTIC community. For your convenience, the Library, Podcast and Forum has just ONE link. So here is [1 link to all the links](#) :)

We would hold online dissemination workshops for the features of PATTIC to help you navigate and extract maximum benefit from this resource repository. We encourage you to share this email with your colleagues and friends who may benefit from these resources.

Best regards,

Team PATTIC
